Controls constrain the explanation: extra training and optimization both matter
Fold control | panel A
Retain factors + fresh Adam
Fold + fresh R32/Adam
Fold advantage at 6,144: 0.026 NLL
NLL
Additional input tokens (millions)
Fold control | panel B
Fold advantage at 6,144: 0.024 NLL
Fold control | panel C
Fold advantage at 6,144: 0.043 NLL
Continuation LR screen | panel A
Original LR
LR / 3
LR / 10
Continuation LR screen | panel B
Continuation LR screen | panel C
Top: EXP-145 versus repaired EXP-148 control, same source and fresh Adam. Bottom: EXP-147/148, another shared source.
Only shared update counts are plotted in each row. One seed, reused validation; folding does not isolate capacity.
